

■ **Medical system for
Carbondioxide Therapy** patented

Personalised and standardised programmes

Activation of medical Carbondioxide gas

Painless therapeutical system

Single-use tube

Certification according to law 93/42

CE 0051 class IIb in the European Community

Gas activation

Single use gas supply tube

Therapy programmes / LCD monitor

Gas supply foot pedal

Clinical Studies

Aesthetic Plastic Surgery 10.1007/s00266-004-2068z

Carbondioxide Therapy: Effects on skin irregularity and its use as a complement to liposuction

Aesthetic Plastic Surgery 10.1007/s002660010116

Carbondioxide Therapy in the treatment of localized adiposities: clinical study and histopathological correlations

Rivista italiana di chirurgia plastica - 22-12-1999 S1-256-269

The role of Carbondioxide Therapy in symmetric multiple lipomatosis therapeutic strategy

C.D.T. EVOLUTION®

Patented Control of Sterility and System of medical Carbondioxide gas activation

A new therapeutic method with C.D.T. EVOLUTION®

- ▶ Microprocessor for the control of variances in tissue resistance during the therapy and real-time development of algorithms.
- Programme Standardisation and local no-pain effect

Principal fields of application

- | | |
|--------------------------------------|------------------------|
| ■ Acrocyanosis | ■ Adipose alterations |
| ■ Raynaud's Morb | ■ Aesthetic Medicine |
| ■ Mixed and diabetic ulcers | ■ Linfedema |
| ■ Varix | ■ Psoriasis |
| ■ Andrology | ■ Stretch marks |
| ■ P.e.f.s. and localised adiposities | ■ Cutaneous Elasticity |
| ■ Before and After liposuction | ■ Sport Medicine |
